

# DANIEL QUERALES

## Entry-Level Data Scientist

### SUMMARY

*Electrical Engineer (with a major in electronics and computer science) with a background in maths, probability and statistics looking for an entry level data science position. Familiarized with languages like Python and SQL; tools like Git, Tableau, Excel and Power BI; also some knowledge with cloud platforms like Microsoft Azure (data warehouses). Experienced with data activities like cleaning, transformation, analysis, modelling, prediction and visualization.*

### RELATED PROJECTS - [MY REPOSITORY](#) - [MY PORTFOLIO](#)

#### Data Exploration: Two years of COVID-19 - [View on Github](#)

- A data exploration project of the COVID-19 dataset.
- Used MySQL to explore the values of total cases, total deaths & people fully vaccinated.
- The data was visualized with Tableau Public tools.

#### Predicting Stock Prices with Linear Regression - [View on Github](#)

- A machine learning project of the Tesla (TSLA) stock historic prices dataset to predict stock prices using a linear regression model.
- Some finance data exploration of the prices (adjusted close, volume, market cap, volatility) with Python tools like Pandas, Numpy and Plotly.

#### Data Cleaning using MySQL: Real Estate Datasets - [View on Github](#)

- A data cleaning and transformation project of a real estate dataset.
- Applied date format manipulation, nulls values replacement, column reorganization and extraction of zip-codes, states and streets, etc.

#### Sales Analysis: Electronics Store - [View on Github](#)

- A data cleaning and transformation project of the sales from an electronic store using Python.
- Merged multiple files into a single CSV, transformation from multiples dates formats and data cleaning operations.
- Extracted insights about the best products sales, the best months for sales, products often sell together and most frequent hour for sales.

### EDUCATION

#### Engineer's Degree in Electrical Engineering | 2008-2019

Universidad Central de Venezuela

Mention in Electronics, Computer Science and Control Systems

### WORK EXPERIENCE

#### Freelancer | 2019-2022

Hardware Description, Numerical Methods and Control Systems
